

CATERHAM SCHOOL ACCESSIBILITY PLAN 2023 – 2026

INTRODUCTION

Caterham School, founded in 1811, is a co-educational independent day and boarding school. It is located in the Harestone Valley in mid-Surrey and has a Christian foundation. The school aims to foster an environment in which pupils are happy, secure, confident and valued, and in which they achieve their academic potential, follow a wide-ranging and enriching curriculum and co-curriculum, and experience independent thinking and lifelong learning through innovative educational practice. The school is committed to high standards in pastoral care, and aims to promote strong spiritual and moral values, self-discipline, responsibility, and respect for others and the environment.

The School is based in the Caterham Valley with school buildings located up both sides of the valley. The Prep School is based in two large Edwardian houses with additional adjacent accommodation.

Situated in its own spacious grounds alongside the Senior School, the Prep School was established as a boys' day and boarding school in 1935. It has developed into a School for day pupils with a pre-prep department which caters for pupils from the Early Years Foundation Stage (EYFS) and Years 1 and 2 in separate accommodation.

The most recent major changes to the school site were an extension to the Centre for Performing Arts in 2016, a new sports pavilion in 2017 and, most recently, the Sports Hall extension, which opened in Autumn Term 2023.

Caterham School ('the School') strives to be a fully inclusive and welcoming school and therefore aims to ensure that each and every pupil can participate fully in the life of the School.

The School is also mindful that parents of pupils and prospective pupils may have disabilities and supports their access to the School wherever possible through special parking bays, ramps, lifts and through virtual means where physical access is not possible.

DEFINITION OF DISABILITY AND SCOPE OF THE PLAN

A child or young person is disabled if they have a physical or mental impairment which has a substantial and long-term adverse effect on their ability to carry out normal day-to-day activities (as defined by the Equality Act 2010).

The School's Accessibility Plan contains relevant actions to:

- increase the extent to which pupils with disabilities can participate in the School's curriculum
- improve the School's physical environment for the purpose of increasing the extent to which pupils with disabilities are able to take advantage of education and benefits, facilities or services provided or offered by the School, and
- improve the delivery of information to pupils with disabilities which is readily accessible to pupils without disabilities.

HOW THE PLAN IS CONSTRUCTED

The School has a disability policy review committee which consists of:

Bursar

Director of Estates

Deputy Head Pastoral and Wellbeing

Assistant Head Pastoral and Wellbeing
Head of Learning Support (Senior)
Deputy Head Prep School
Head of Pre-Prep School

The committee may co-opt additional members whose expertise in any field would be of assistance. The committee's terms of reference are:

1. to review annually the School's policies, procedures and facilities as they are likely to affect pupils and prospective pupils with disabilities
2. to make recommendations with a view to improving the accessibility of its education in many aspects to pupils or prospective pupils with disabilities by means of reasonable adjustments and by planning for the future
3. to review the School's SEN and Disability Policy
4. to prepare the School's accessibility plan
5. to review such plans and policies as necessary and at least on an annual basis.

The School's disability policy review committee has been central to the drawing up the School's plan. They have considered the following when developing and reviewing the plan:

- Admissions
- Attainment
- Attendance
- Behaviour Logs
- Education
- Extra-curricular activities
- Physical school environment
- Selection and recruitment of staff
- Sporting education and activities
- Staff training
- Welfare

The School has also consulted staff with responsibility for the induction arrangements for new pupils to ensure that the particular needs of pupils with disabilities are recognised in advance, that suitable staff training is provided and that any modifications to the curriculum or premises are fed into the plan before the arrival of the new pupils.

HOW THE PLAN IS REVIEWED AND MONITORED

The School's disability committee meets annually to frame recommendations for inclusion in the plan. These recommendations include input from the senior leadership team and the document is then placed on the agenda for an appropriate sub-committee meeting of the governing body which monitors implementation of the plan including considering which measures have been achieved and where any delay in implementation is foreseen. Minutes recording the review are considered by the full Board.

The school's trustees are ultimately responsible for ensuring the implementation of the accessibility plan during the period to which it relates. A new plan will be drawn up every three years.

The plan should be read in conjunction with the School's Admissions Policy and Special Educational Needs and Disability Policy.
